

# 5th HIV Research for Prevention Conference (HIVR4P 2024)

HIVR4P 2024, the 5th HIV Research for Prevention Conference, will take place in Lima, Peru, and virtually from 6 to 10 October 2024 and is expected to bring together around 1,500 participants.

The **HIV Research for Prevention Conference** is the only global scientific conference focused exclusively on the challenging and fast-growing field of HIV prevention research. This conference fosters interdisciplinary knowledge exchange on HIV vaccines, microbicides, PrEP, treatment as prevention and biomedical interventions, as well as their social and behavioural implications.

When	October 6 - October 10, 2024
Location	Lima, Peru
Venue	In person and virtually
