

AIDS Is Everyday / June

September 30, 2022

AIDS is an everyday experience. The dates on this calendar all relate to the AIDS crisis. Some are globally known; others are drawn from personal experiences.

This online calendar is produced in partnership with [Visual AIDS](#) and is an extension of the exhibition “[EVERYDAY](#),” which was curated by Jean Carlomusto, Alexandra Juhasz and Hugh Ryan in 2016. The exhibition and accompanying print calendar explored the AIDS crisis—historically and currently—through the lens of art and ephemera that examines and evidences daily experiences and practices in response to HIV/AIDS. Artists featured in the “EVERYDAY” exhibition were invited to submit as many dates to the calendar as they desired.

We invite you to reflect upon these dates, and this artwork, in dialogue with one another. We also encourage you to submit dates of your own by clicking [here](#). Submissions may include the date of your diagnosis, the date of the loss of a loved one to AIDS-related illness or a significant milestone in your life with HIV/AIDS.

New submissions will be continually added to the calendar because AIDS is not over.

JUNE 1

ACT UP joins other national activist groups for its first protest at the White House. The police wear rubber gloves while arresting protesters. (1987)

Nkosi Johnson, a South African child born with HIV who had a powerful impact on the public perception of AIDS and was the keynote speaker at the 13th International AIDS Conference, dies of AIDS-related complications at age 12. (2001)

Ryan White is denied admittance to his middle school after AIDS diagnosis at age 13. (1985)

About the Artwork

This poster was made for the fierce pussy mobile (1994), and later wheatpasted on the streets of New York City. Using a borrowed art-moving truck, the group wheatpasted the truck with large-scale posters, and enlisted friends to drive the truck around NYC during Pride weekend of Stonewall 25—the 25th anniversary of the Stonewall rebellion. The fierce pussy mobile was a do-it-yourself moving billboard. The posters were produced on color Xerox machines after hours at our day jobs at magazines. At the end of the weekend, the truck was taken to the car wash, posters removed and the truck was returned to the art mover.

—fierce pussy

visual art projects, exhibitions, public forums and publications—while assisting artists living with HIV/AIDS. Visual AIDS is committed to preserving and honoring the work of artists with HIV/AIDS and the artistic contributions of the AIDS movement.
